

3rd
Semester
r 4th
Sem.

		Core Areas
Shared subjects		Software Process Management
		Verification and Validation
		Software Design
		Requirements Engineering

Partners
specific subjects

BTH ←→UNIKL
20 - 24 ECTS

BTH ←→UNIKL
20 - 24 ECTS

BTH ←→UNIKL
20 - 24 ECTS

Competences to work on research in SE

Autonomous Student's work

Empirical Research Methods 7,5-16 ECTS

48 - 66,5 ECTS

8-15,5 ECTS

7,5 - 12 ECTS

15,5 - 32 ECTS

4-15,5 ECTS

performed in external organisation	
Autonomous and supervised student's work	
Autonomous and co-supervised student's final work	

Electives	38 ECTS
Internship	4 ECTS
Project	4 ECTS
Thesis	30 ECTS

Example of Projects				
FUB	Open Source SW analysis and development			
UNIKL	Team-based Software Development			
втн	Globally Distributed Development			
UPM	Experiment Replications in SE			
USP	Systematic review in SE			

Partner specific strength			
FUB	Software Reliability		
	Software Measurement		
	Mobile and Internet systems		
UNIKL	Software Process Management		
	Software Quality		
	Software Process modelling		
BTH	Software Improvement		
	Global Software Engineering		
	Software Design
